2 / 4 YEARS

MEC SCHOLARSHIPS

MINISTRY

REAL-LIFE PRACTICE

We offer comprehensive training with real-world experiences that connect theory and practice in high-quality professional environments, preparing you for the challenges of the healthcare field.

HOSPITAL INTERNSHIPS

Gain professional experience at the state-of-the-art IMED Virgen de la Fuensanta Hospital, allowing you to work in a high-quality clinical environment.

DISSECTION PRACTICE

Explore Human Anatomy through a rigorous scientific approach. These sessions strengthen the connection between theory and practice, giving you a deep understanding of the human body.

OSTEOPATHIC PRACTICE

Learn from experts in real clinical cases and enhance your practical skills to effectively assess and treat, boosting your professional career.

More than a training program, a real experience: learn, grow, and contribute to the world of Osteopathy

INTERNATIONAL STAY

Enrich your professional experience with our International Stay. Take part in projects in countries such as Argentina, Bali, Costa Rica, and Ukraine, where the Hands With Heart Foundation operates. Develop global skills and contribute positively to local communities.

OUR CENTER

The University School of Osteopathy, located in the modern IMED Virgen de la Fuensanta Hospital in Murcia, offers an ideal training environment with 45 individual rooms, 8 ICU bays, and 40 outpatient consulting rooms.

This advanced center combines state-of-the-art technology and a comprehensive approach to health.

You will rotate through advanced diagnostic services and 24-hour emergency care.

We also provide a complete library and osteotheque to support your learning.

Our program includes clinical internships with real patients in our Osteopathy clinic, in outpatient hospital consultations, and in dissections at the Faculty of Medicine.
